ENDO 101

OVERVIEW

The key to successful Endodontics is a grasp of the basic principles of treatment. **ENDO 101** presents an essential philosophy of treatment grounded in these principles and coupled with over forty years of clinical experience. An investigation of the reasons for success and failure provides the framework for the clinical approach used to confidently treat everyday cases.

Today's technological advances are integrated with these basic principles to achieve Endodontic success with more ease, decreased stress, in less time and with greater consistency of favorable results.

Topics to be covered:

- ◆ One visit treatment
- ◆ Digital radiography
- ◆ Magnification
- ◆ Apex locators
- ◆ Nickel titanium rotary instrumentation
- ◆ Automated irrigation
- ◆ Continuous wave root filling
- ◆ Injectable back filling
- ◆ **Resilon** ~ the missing link in root canal filling

***The Alpha Omega Foundation**

With the creation of the Alpha Omega Foundation in 1969, the horizons widened and all fundraising and distributions of funds came under a separate entity. Since that time the Alpha Omega Foundation has taken its place as one of the largest non-profit dental foundations. It has touched every aspect of dental health, education, research and care, and has brought prestige to the Alpha Omega Fraternity.

Since its inception the Foundation has distributed well over \$8,000,000 in designated and undesignated funds. Every dental schools in he US and Canada has received funds - research projects have been funded - institutions helped in various projects - individuals and training programs have been supported and hospitals and homes for the aged have been funded.
