You are invited to take part in this historical event December 25th through January 1st. Please join us as we anticipate a sighting of these curious beings at the 2001: An AO Odyssey convention. You just never know what you will encounter!

It is a known fact that there have been visitors from outer space since the beginning of Earth time. We have learned that they will be taking another expedition to our planet in the light year 2001. It will be an odyssey of immense proportions, for this visit, these extraterrestrials are touching down at one of the most exciting landmarks of our galaxy, New York City, where the inhabitants are as diverse as the city itself.
